

The Science Crew

2024	Program	Description
January	Disgusting Digestion	Eat, chew, swallow. Then what happens? Let's find out with hands on science.
February	My Beating Heart	Learn about the strongest muscle in your body – your heart! Listen, feel and see your own heart beat.
March	Flying Feathers	Learn about our incredible flying friends: Birds! Discover how the feathers of these animals have many different jobs.
April	Plant-astic	Discover the incredible world of plants. Find out what makes these creatures so special.
May	Magnetic Madness	Explore how we use the power of magnets in many scientific inventions.
June	Repel Rebel	Discover what materials can absorb and repel liquids the best. Learn how to make water go up with capillary actions.
July	Cycle Circle	You'll be going in circles with all our cool cycles. Discover the water cycle and how it keeps going.
August	Construction Curiosity	Discover how building designs lead to great discoveries. Build with less and create more.
September	Stronger Than Air	Discover the power of air! Is it strong, weak or both?
October	Nocturnal Nature	Learn about these funny creatures that fly through the night sky. Find out why these animals are friends to humans.
November	Your Observers	Learn about our sense of touch, hearing and taste. Find out why food doesn't taste so yummy when you have a cold.
December	Not Just Boogers	Discover our amazing sense of smell. Have FUN as we learn about the science of our senses.
